BAI LED Filament Safe Ball G45 E27 3.2W 2700K Clear 320lm (30W) 230V-240V 320D 45x70mm IP44 Shatterproof Polycarbonate Party LED-lamp

The LED filament Safe series responds to the desire to also use the decorative filament bulbs where shards are extremely undesirable when broken. Think of professional (open) kitchens, above tables in a restaurant, above the food department in and on the market. The bulb is made of polycarbonate which is much stronger than the traditional glass shade and also does not splinter. This also makes the lamp ideal for use in barbed cables at (temporary) festivals or events. When mounted hanging in combination with a suitable lamp holder (holder makes a watertight seal with the bulb) also outdoors applicable. We advise to use this lamp in combination with the Bailey Light Strings of 5, 10, 25 or 50m. Moreover, this lamp is durable and energy efficient.
