BAI BaiSpot LED AR111 GU10 15W 2700K 25D Glass Reflector 1200lm (100W) Dimmable Ra90 230V-240V 111x69mm ES111 LED-lamp

The so-called LED spots from the BaiSpot series are characterized by a much longer lifespan and significantly less energy consumption than their halogen predecessors. Due to the compact design, they are easily interchangeable. This version has a high CRI value (color rendering index) of 90. Spots are mainly used to provide directed light from the ceiling or wall. This glass version literally and figuratively has an extra beautiful appearance because the part through which the light shines is made entirely of glass. Ambient temperature range: -20°C to +40°C.
