BAI Combi Pack 5pcs LED GU10 5W (50W) 380lm WarmDim 2700K-2000K CRI80-89 35D + Wonderwall LED RC Wall dimmer 3-150W/VA (LED till 70W/230V)

This combipack contains a unique combination of 5 high-quality dimmable GU10 spotlights with a wall LED dimmer that is precisely tuned to the spotlights. This way you never have to wonder whether the dimmer fits the spots or vice versa. The GU10 Warm Dimming LED spots are more than just a replacement for 50W halogen spots. With these durable spots (5W energy consumption only) you can set the desired atmosphere by gradually dimming the light output together with the color temperature (from 2700K back to 2000K). The universal Wonderwall RC LED wall dimmer from Bailey has great ease of adjustment due to 4 dimming profiles and is electronically secured. This is the recommended dimmer for practically all Bailey dimmable LED lamps and universally applicable in the well-known A-brand switching lines. Also suitable for hotel switching.
