Emergency Power Supply for LED Rope Plus

12929

BAI Emergency Power Supply with power cable and connector 50x90x285mm IP65 for Robust LED rope plus series

Emergency Power Unit for Robust LED Rope Plus Light Strips. This emergency lighting unit is specifically designed for the Robust LED Rope Plus series and ensures reliable performance during power outages. The user-friendly connector makes installation quick, placing the unit in front of the LED rope. just enough to safely find the way out. The unit is IP65-rated, making it suitable for use in damp or humid environments. With a fully charged battery, it offers 2 hours of emergency lighting. Once reconnected to mains power, the battery recharges automatically. A built-in LED indicator shows the battery status for added peace of mind.
