OSR LEDDriving ERROR CANCELER LEDEC01-2HFB 12V Duo

The LEDDriving ERROR CANCELER is an optimized accessory product for OSRAM's LED replacement lamps. It was developed for an universal usage in high beam application. In addition, it serves as a bypass of a vehicle's lamp failure detection system when using a H7-LED retrofit lamp. The control unit offers an easy installation due to compact design. One additional feature is the flickering-free in the vehicle's headlamp. OSRAM provides a 3 year guarantee for this product. Only the combination of OSRAM NIGHT BREAKER LED lamps in connection with the official OSRAM accessories - LEDDriving ADAPTER, LEDDriving SMART CANBUS, LEDDriving ERROR CANCELER and LEDDriving CAP (where required) - is permitted. Optional use of canbus control units in the event of an error message on the on-board computer is recommended, depending on the vehicle equipment.
