

AirZing Mini Air Purifier UV-A Automotive

Oro drėkintuvas/grynintuvas

40274

OSRAM AirZing Mini Air Purifier 5V 2W UV-A (360-370nm) for use in vehicles 80x50mm 1m USB power cable DC 5V

The AirZing Mini removes germs and improves air quality for drivers and passengers. With UV light, this compact and quiet device can eliminate up to 99.9% of viruses and bacteria. In a closed, small space, harmful germs can easily spread. The drivers and passengers unknowingly take these germs with them on the road and then the ventilation system spreads the pathogens. The air purifier also eliminates allergens, substances and odors in the air. This device can be easily attached to the ventilation grilles with a clip. The USB cable supplies the air purifier with power. Air is drawn into the device and passed through a titanium dioxide filter, where it is cleaned by a series of UV diodes. A photo-catalytic reaction kills viruses and bacteria cells before the purified air is expelled through the top of the housing. The filter can be cleaned with clean tap water.

KLASIFIKACIJA

Grupė	Gyvenamųjų patalpų šildymas
Klasė	Oro drėkintuvai/grynintuvai
Pavadinimas	AirZing Mini Air Purifier UV-A Automotive
Gamintojas	OSRAM
Serija	AirZing UV-A
Tipas	Mini
EAN	4062172173988
Gamintojo kodas	4062172173988

PARAMETRAI

Galia [W]	2
Spalva	Juoda
Plotis [mm]	80
Versija	Oro grynintuvas

Svoris [kg]	0.11
Oro cirkuliacija	6.5
Gylis [mm]	50
Aukštis [mm]	80
