OSR Dashcam ROADsight 30 150x195x390mm 1080p 30fps resolution 130D lens 32GB (SD not included) WiFi

An installed OSRAM ROADsight 30 dashcam can offer peace of mind while driving in your car. With a full 1080p 30fps resolution and 130-degree lens, get a wide view of the road with high quality recordings and easily pick up features such as number plates and road signs. With WiFi and OSRAMconnect compatibility, easily access footage and images you might need. A 2" screen allows you to play back footage and keeps the dashcam compact and discreet in order to not be a distraction whilst driving. If your car has a collision whilst it is parked, parking mode switches the dashcam on to record anything that's going on around your car within the 130° field of view. Automatically save footage from your dashcam when a collision occurs to collect evidence for later use. Save up to 32 GB of footage with an SD card (not included in the delivery). A magnetic mount and trim removal tool allow for easy installation.

KLASIFIKACIJA
