

LIGHTsignal HAL BEACON Light 70W RBL101

Besisukantis signalizavimo švyturėlis

57205

*OSR LIGHTsignal HAL BEACON Light 70W RBL101 24V 2200K
150x193mm IP65*

The OSRAM LIGHTsignal HAL BEACON LIGHT is a 360° rotating yellow beacon light that can be mounted on vehicles with unusual width, length or load, as well as on municipal vehicles, emergency, command and accident relief vehicles to draw attention to an unusual situation on the road or in the working environment. The rotating beacon from OSRAM can be used for better visual recognition, marking and securing of danger spots or special locations. Furthermore, rotating beacons are used in certain facilities, on machines and devices as well as in alarm systems. The rotating beacon from OSRAM is characterized by a high efficiency due to a high-quality H1 halogen lamp with up to 1900 lumens and 2200 Kelvin and thus ensures improved visibility and therefore increased safety for you and others - during the day and at night. Thanks to its non-slip, shock-absorbing rubber base, the warning light from OSRAM is particularly resistant to vibration.

KLASIFIKACIJA

Grupė	Optinė ir garsinė signalizavimo įranga
Klasė	Rotating beacon alarm luminaire
Pavadinimas	LIGHTsignal HAL BEACON Light 70W RBL101
Gamintojas	OSRAM
Serija	LIGHTsignal
Tipas	Beacon Light RBL101
EAN	4062172192828
Gamintojo kodas	4062172192828

PARAMETRAI

Galia [W]	70
Nominali įtampa [V]	24
Lempos tipas	Halogeninė lempa
Apsaugos klasė (IP)	IP65

Apsaugos klasė (NEMA)	Kita
Lempų lizdai	H1
Elektros srovės tipas	AC/DC
Gaubto spalva	Gintarinė
Optika	Veidrodis
