*Sealed beam lamps are a type of lighting that feature a parabolic reflector and a glass lens. These two elements are sealed together as a means of weather resistance and offer a robust and reliable solution for various special applications. They provide extremely bright illumination and are Originally introduced for road vehicle headlamp but nowadays frequently used in applications that require brilliant light for long distance visibility and safety, such as stage studio, railway, aircraft, marine, automotive and architectural illumination. PAR36 lamps are designed for brilliant and sparkling light effects. Special purpose lamp, not suitable for household illumination. CAUTION: use in fixture rated for this product. Risk of fire, keep combustible materials away from lamp.*
