

Cube MX85-WD

Full-force LED meets long-lasting quality

2 LED light functions

Work light and stylish X shape light

Lighting distance up to 55 meters

Improved near field illumination

Beam angle 43.5°

Exceptionally wide beam angle

Powerful LED working lights for off-road use

People who regularly drive in difficult terrain know the benefits of a strong and reliable LED high-beam headlight. Near field illumination is an ideal choice for off-road use. With an illuminance of one lux, the LED working light reaches a light distance of up to 55 meters. The beam angle of the lamp is 43.5 degrees. The working headlight for cars gives drivers two possible LED light functions. One is the classic working light and the other is the LED working spotlight that provides stylish X shape light. And the spotlight is compelling beyond its function as a LED working light. The LED headlights work to underscore the off-road style of the vehicle, clearly emphasizing and enhancing it once again. Compact, robust and durable. Particularly when driving in off-road conditions, durability and quality are much sought-after attributes. The LEDriving Cube MX85-WD working lights have a robust polycarbonate lens and can stand up to the most difficult demands of off-road applications. Over and under voltage protection up to 18 volts automatically breaks the circuit when power exceeds the predetermined current for a specified amount of time. To maintain their durability, the powerful searchlights are additionally equipped with an integrated driver and thermal management system. This eliminates the risk of overheating during continuous use. Excellent compatibility. The LEDriving Cube MX85-WD working lights have a diverse range of applications. They are suitable for use in everything from 4x4 cars to off-road, utility and industrial vehicles through to recreational or agricultural vehicles. It is important to note, however, that these powerful working lights for automobiles are permitted only for off-road applications and must not be used on public roads.

Product datasheet

Technical data

Product information

Order reference	LEDDL101-WD
Application (Category and Product specific)	Working light application

Electrical data

Nominal voltage	12.0 V
Nominal wattage	20 W

Photometrical data

Luminous flux	1250 lm
Color temperature	6000 K
Light distance at 1lx	55 m

Dimensions & weight

Product weight	500.00 g
Length	85.0 mm
Width	57.0 mm
Height	121.0 mm

Lifespan

Lifespan Tc	5000 h
Guarantee	5 years

Product datasheet

Additional product data

Luminous intensity distribution

Connector to lamp	Wire Kit
-------------------	----------

Capabilities

Technology	LED
------------	-----

Certificates & standards

Standards	ECE R10
Approval marks – approval	E6 approval
Type of protection	IP67

Country specific categorizations

Order reference	LEDDL101-WD
-----------------	-------------

Logistical data

Commodity code	851220009000
----------------	--------------

Logistical Data

Product code	Product description	Packaging unit (Pieces/Unit)	Dimensions (length x width x height)	Volume	Gross weight
--------------	---------------------	---------------------------------	---	--------	--------------
