

## Tulox PSL (PhotoSynthesis Light) Tubular Clear LU400W/PSL/T/E40 17106

### Product information

Simple light or lumen maintenance is not enough to create plant growth. Plants require a certain radiation level to help with photosynthesis. The Tulox

PhotoSynthesis Light Lamp has been specially developed to provide stable lumen maintenance and increases Photosynthetically Active Radiation (PAR).

- Measured in micromole/sec, the increased PAR output of the Tulox PSL lamp best simulates natural daylight to maintain plant growth under artificial lighting conditions.

### Application areas

 Horticulture
